Specifications

Sturdi-Bilt "D" Series Ductwork: 16 Ga corrosion resistant Aluminized Steel. All Externally Welded NFPA Code #96 Construction, painted welds for additional corrosion resistance. Ductwork complete with built in 16 Gauge All Welded Curb Adapter for Drop In Installation, 16 Gal All Welded Exhaust Collar for Easy Installation on canopy, and S/S Ceiling Trim Collar for Kitchen ceiling. S/S Collar also provides a trim cover for 3" required clearance to drop ceiling panels as required by NFPA#96. Complies with International Mechanical Code Type I Ductwork. Includes installation instructions.
